

# Equipment Repair Technician

## A. Website Careers Page Template

### Equipment Repair Technician

<Company Name> | <Location>

<Company Name> is looking for an **Equipment Repair Technician** to inspect, diagnose, maintain, and repair commercial cleaning equipment and related systems.

This role is essential to helping customers stay productive and operational. The right person is mechanically inclined, dependable, detail-conscious, and committed to quality workmanship.

The role rewards individuals who can troubleshoot methodically, solve problems with precision, and stay steady until the equipment is fully back in service.

### What you'll do

- Diagnose and repair equipment issues
- Perform preventative maintenance
- Track repairs, parts, and service documentation
- Communicate with customers and internal teams
- Help ensure equipment is safe, reliable, and ready for use

### What we're looking for

- Mechanical or electrical troubleshooting experience
- Strong problem-solving skills
- Ability to work independently and stay organized
- Repair experience with floor equipment, vacuums, extractors, or related equipment preferred

<Insert shop/field split, training provided, certifications, tools, and benefits.>

## B. LinkedIn Template

### Equipment Repair Technician | <Company Name> | <Location>

<Company Name> is hiring an **Equipment Repair Technician** to help keep customer equipment running reliably.

This role is ideal for someone who enjoys diagnosing problems, fixing things the right way, and delivering dependable service.

You'll handle repairs, preventative maintenance, troubleshooting, and service support for commercial equipment in a role that directly impacts customer satisfaction.

<Insert company culture, training, and schedule details.>

## C. Indeed Template
